

CannonBall Thermal-Master™ Windows

Horizontal rolling aluminum windows with a thermal barrier which insulates interior aluminum parts from exterior aluminum parts reducing heat loss in winter and heat gain in summer.

Double sealed 13/16" insulated glass. Most other window manufacturers use insulated glass that is 7/16" or 1/2" thick.

Designed for use on commercial, agricultural and residential buildings.

13/16" Double Sealed Insulated Glass

Horizontal Rolling Aluminum Construction

Completely Assembled Including Screen

Sloped Sill for Proper Water Drainage

2000 Series Thermal-Master™ Windows

**2000 Series Thermal-Master™
Windows featuring:**

- Low maintenance, minimum energy loss.
- Designed with the sash guide and sill guide to the inside which reduces air infiltration.
- Weather-stripped wool pile with a polypropylene fin. Interlock, slider, and bottom rail of sash are all double weather-stripped.
- Available in white, brown or bronze.
- All glass is quality checked to meet the minimum 13/16" thickness.
